EXAMINER'S AMENDMENT

1. A Request for Continued Examination was filed on January 4, 2007 with submission of IDS. The IDS submitted has been considered and the art cited does not teach the sequences of the primers SEQ ID No. 1 and SEQ ID No. 2.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Allan Kiang on September 26, 2006.

The application has been amended as follows:

This application is in condition for allowance except for the presence of withdrawn claims 18-27 directed to invention II nonelected without traverse. Accordingly, claims 18-27 have been canceled without prejudice to further prosecution in continuing or divisional application.

3. The following is an examiner's statement of reasons for allowance: Claims 1-17 are drawn to an amplification method for detecting *Neisseria gonorrhoeae* target sequence. The claims are allowable because the sequences of the primers SEQ ID No. 1 and SEQ ID No. 2 are novel and not obvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
